HOME ABOUT CONTACT SERVICES -

License your Data

Licenta is a suite of services to support you in looking for a suitable license for your data. Select the service you need from the list below!

Find a license for your Data

Use this service to find the perfect license for your work. You only have to mark what permissions, obligations and prohibitions you would like to associate to the use and reuse of the data. Licenta returns the list of licenses compatible with the selected conditions.

Find a License

Check if a license is compatible with your needs

Use this service to check if the license you want to use for your data allows for a certain use or reuse of the data. You choose one license among our licenses repository and a set of conditions. Licenta tells you whether the license is compatible with the selected conditions.

Check License Compatibility

Visualize & download licenses

Once you find the license you are looking for, you will be able to download it in RDF (Turtle syntax) to attach it to your data. Moreover, you can visualize a graph-based representation of the license using our licenses visualizer.

- Using several different datasets?
 - Check format
 - Do I want/need to convert them into one format?
 - Easier for integration
 - One parser for further processing
- Content
 - Missing values ? (might break my app)
 - Does the content change?
 - Are the values arrogated? If so, do I know how?

Application Environment

- Web vs. Mobile vs. Desktop
 - Depends strongly on the application & skills 😊
- Desktop & Mobile
 - Different OS systems -> diff languages
 - ✓ Access to personal data, hardware available
- Web app
 - Require Internet availability, hardware, re-active interfaces
 - ✓ Device/OS agnostic
